ACCESS Program

Supporting Women in Science & Math

ACCESS welcomes all students who are inspired by science and committed to advancing gender equality in STEM. The scholarship, valued at over $5000, includes a monetary award and covers all costs associated with the ACCESS first year experience.

ACCESS provides freshmen and transfer students from a variety of backgrounds with a supportive path into STEM degrees, and later careers.

A year with ACCESS informs academic and career goals at the earliest possible stage, builds social awareness, unites a group of like-minded peers, and connects first year STEM students to a network of over 800 program alumni.

ACCESS is a signature program of the University of Utah College of Science. Through partnerships with the College of Mines and Earth Sciences, the College of Engineering, and Medical Laboratory Sciences, ACCESS welcomes and supports students majoring in all STEM disciplines.

A Year of ACCESS

SUMMER
Before your first Fall semester at the U

Live... on campus (freshmen)

Learn... about global scientific issues in an ACCESS exclusive course

Engage... with scientists and engineers and build a strong cohort of support

FALL & SPRING
Your first year at the U

Acquire... skills for academic and career success

Research... with mentorship from an elite STEM professor

Share... your research in an end of year symposium

APPLY

Applications due February 15
