Overview of STEM Action Center Organization Grant

1. Introduction
   A. Background
   During the 2013 Legislative Session, House Bill 139 was passed creating a STEM Action Center (STEM AC), to be supported by the Governor’s Office of Economic Development (GOED). STEM AC was created to help identify and disseminate information concerning STEM best practices in educational settings, as well as providing exciting, real-world STEM learning opportunities. House Bill 139 requires the STEM Action Center support student involvement in STEM fairs, camps, and competitions. For the first three years of the STEM AC’s existence, it ran the student STEM Fairs Camps and Competitions Grant program to fulfill this mandate. In 2015, the STEM AC created the STEM Organization Grant to support Utah organizations with STEM programming for students. This organization grant was organized to broaden student impact, increase student resources, and encourage student involvement in STEM activities.
