

Are you new to *ALEKS*? If so, you may be wondering – where do I start? Here are the top 5 resources *ALEKS* offers that you may not know about:

1

Welcome Center

Our new Welcome Center includes the most essential resources to get you up and running in *ALEKS*, quickly and efficiently! So if you're stumped on how to get started, walk through our tutorials on how to pre-register students, create a class, access student progress reports, and more!

2

Training Center

Our Training Center is your go-to place for on-demand resources, including user guides, videos, and printable tutorials, on how to complete common tasks that you'll be doing in *ALEKS*. You can also register for one of our complimentary, live webinar sessions for a more detailed overview of the program.

3

Live Webinars

Complimentary, one-hour sessions are available daily and provide a detailed overview of how *ALEKS* works. In these webinars, an *ALEKS* implementation specialist will guide you through the program, provide best practices, and answer questions you have so you can get the most out of your *ALEKS* experience. Don't have time to register for a webinar? Watch a short pre-recorded session, or view our on-demand videos located in our Training Center.
